

to sign up to be witnesses at the demonstrations. Kings and Priests simply asks for a voluntary love offering after the presentation to help cover costs. That is all that the church members will ever be asked to donate. Kings and Priests also invites anyone who wishes to bless the body of Christ to join in their "Fishes and Loaves" program as a voluntary contributor to the ministry.

### **Fishes And Loaves**

The "Fishes and Loaves" Program offers people a way to greatly multiply whatever blessing they are intending to donate to any Christian denomination. Rather than just making a donation to a church, a person could instead, make a donation to Kings and Priests on behalf of that church and, for every ten dollars donated, Kings and Priests will make sure there is a witness recruited for that church. We cannot guarantee to recruit witnesses from a specific church (although we will try) but we can assure any donor that we will get a witness from their preferred denomination for every ten dollars they donate.

This is multiplication at it's best. A ten dollar donation directly given to the church is just one loaf of bread and one fish. But, if it is given to Kings and Priests it could result in thousands of dollars. Kings and Priests will get one witness from the church, and that one witness may get nine others involved on behalf of the church. When the technology is ready for distribution, those ten units could throw off a profit of as much as \$4,500 a year each to the church, every year possibly for as long as the donor lives! Imagine one ten dollar bill possibly providing \$45,000 every year for decades to the intended recipient. That is like feeding 5,000 people with

five loafs and fish. All the good that could come from that small gesture is counted unto the donor. A mere \$250 donated through Kings and Priests for a certain denomination could possibly set up a million dollar stipend for that church every year for life!

There has never been a program with such potential to bless the body of Christ. We believe that God is with us in our effort to confront the wickedness in business and politics in America. We believe that an alliance of Kings (those who God is calling to fund the body of Christ and confront corruption and revive free enterprise) and Priests (those who God has raised up to preserve the morals of our society and revive Christian values) is what is needed to turn America back toward God.

Everyone can be a part of this exciting vision. Whether you are joining us in our battle with big business or donating any amount, we can all take part in this effort. We would love to be invited to your Church to share this great vision, and, to prove with actual technical demonstrations, what is really possible, and why it is essential for this to happen. We welcome anyone who believes that Jesus Christ is the only way to salvation. We want to join with all our brothers and sisters in Christ to take America back for Christ, and to spread the message of the Gospel to the ends of the earth. If we do not at least try to achieve that which seems unattainable, how can we expect to attain it? There are, indeed, giants in this land. But, we serve a mighty God. Together, as a nation of Kings and Priests, we can have the victory to His glory.

**"I, Wisdom, Dwell with Prudence And Find Out Knowledge of Witty Inventions"  
(Proverbs 8:12, KJV )**

*Welcome to the  
Ministry of Kings and Priests.  
Our Ministry Is Dedicated To  
Bringing Provision To The  
Body of Christ For the Vision  
of Advancing the Kingdom of  
God on Earth.*

Those who serve the god of this world have great resources at their disposal to pervert and subvert the message of our Lord. He who seeks to kill, steal, and destroy mankind is using the world system to have his way while God's servants are unable to stand toe to toe with their opponents financially. We are losing the battle for morality and Christian values in America. Fossil fuels alternatives are killing 60,000 Americans every year with pollution and destroying the environment.

To get energy, we are unwittingly putting money into the hands of a people who are sworn to kill Christians as part of the exercise of their religion. The return on energy investments enable Hollywood, big business, and financial institutions to attack family values and the sanctity of marriage. The courts are siding with those who would remove God completely from our country. Without great financial resources the body of Christ is greatly handicapped in the struggle to defend and even advance the Kingdom of God. But, where there is vision from God there is provision from God. That provision comes through the God appointed relationship between Kings and Priests.

In the Old Testament, Kings were appointed to do battle with the world system and take the resources to share with God's Priests so the Priests could focus on maintaining a moral and godly people. The Priests offered sacrifices to God on behalf of the Kings before battle. It was a God inspired partnership.

**“God Has Given Us Power To Create Wealth” (Deut 8:18)**

Operating in the Ministry of Kings, God has equipped us with a plan to confront the wicked business practices of our day and bring unlim-

ited wealth to our Priests. Imagine what it would be like if everyone who attended a church were able to give 100% of their income to the church. How fast would that church grow and what sort of resources would it have to defend the faith? We believe that if every Christian in church could donate an average of \$45,000 (in addition to what they are already donating) to their church every year, our churches would be armed to respond to the attacks on morality with projects that could counter the destructive forces of well capitalized immorality. We have a plan to make that happen. It is a plan that will cost the church nothing. It is a plan that will cost the members of a congregation nothing! It is a plan that relates to resources that God has made available to us that we are willing to surrender to the body of Christ, asking nothing in return except that the churches use the resources to take back America for God!

**“I, Wisdom, Dwell with Prudence And Find Out Knowledge of Witty Inventions” (Proverbs 8:12, KJV)**

The founders of Kings and Priests Ministries, Dennis Lee and Alison David Lee, are also owners of three national corporations, Better World Technologies, United Community Services of America, and the International Tesla Electric Company. God has shown Dennis hundreds of revolutionary technical breakthroughs. The most startling new discovery is a proven motor and a proven generator that are expected, in combination, to produce electricity at no cost and with NO pollution! Everyone knows that if someone were to develop a pollution free energy alternative that could revolutionize energy production, it would be worth hundreds of billions or even trillions of dollars. Dennis and Alison, are willing to surrender all of their potential windfall to the body of Christ to be used to revive God's presence and morality in America,

and to spread the Gospel of Jesus Christ to the world. To advance such a world changing technology will be met with much resistance by those rich and powerful self interest groups in the fossil fuels industry. Past experience has taught us that what is needed politically to make this happen is “people power”. That is why we have decided to do 100 demonstrations of the technology done in football stadiums, filled with witnesses from the entire country. The media will be forced to cover the event and the corrupt officials will not be able to employ their usual “dirty tricks” to stop it and keep it from the people. One thing the church has a lot of is witnesses. As we have witnessed for Christ, we can now witness for the truth in technology. All profits of the corporations named above will be donated to Kings and Priests Ministries to be disbursed back to the churches that are involved with getting the witnesses.

**Called To Be Witnesses**

Each church will be invited to recruit people who are willing to do nothing more than attend the demonstration nearest them. Neither the witnesses nor the church will be required to pay anything for this offer of free electricity for the witness and a donation of all the profits for the church. Kings and Priests has applied as a 501 (c) 3 non-profit ministry, (status pending). The ministry has expenses to operate and to seek witnesses for the public demonstrations. Kings and Priests functions purely through voluntary donations. Kings and Priests is willing to go to church groups and demonstrate amazing technologies for the people and invite them
